

PS SolarX 110-4G Container Tracking Device

About Device

The SolarX 110-4G Container Tracker is a robust, IP67-rated device designed for real-time container tracking with multi-GNSS support (GPS, Glonass, Galileo, Beidou, QZSS) and 4G LTE connectivity. It features ultra-low power consumption, BLE 5.3 support, and remote configuration via FOTA, making it ideal for secure, long-term asset management in logistics and supply chains.

Key Feature

01

Multi-GNSS & 4G LTE:

Supports GPS, Glonass, Galileo, Beidou, QZSS and global LTE bands for accurate, real-time tracking.

02

Ultra-Long Standby:

2500mAh Li-Polymer battery with unlimited standby time under optimal settings.

03

Robust Design:

IP67 waterproof rating, operates in -30°C to +80°C, and supports magnet, screw, or tape mounting.

04

Advanced Alerts:

31 types of alarms (e.g., low power, motion detection, removal) and 64 geo-fence regions for enhanced security.

Technical Feature

- **GNSS Sensitivity:** Acquisition: -147 dBm, Tracking: -166 dBm.
- **Data Transmission:** Supports TCP, UDP, MQTT, SMS with MD5/AES128 encryption.
- **BLE 5.3 & WiFi:** Enables extended functionality and configuration.
- **Temperature Sensor:** Built-in for environmental monitoring.
- **Dimensions:** 88 x 60.4 x 30.7mm, Weight: 150g.
- **Charging:** Type-C connector, 5V/1A adapter recommended.
- **Certifications:** FCC, CE, RCM, NBTC, TDRA, CITC, Anatel, IP67.
